

THE ULTIMATE REEL TO REEL TAPE RECORDER DIRECTORY - INSTRUCTIONS

1. **Download** the getreel.zip file to your desktop, create a new folder called 'Get Reel' (you can call it something else if you want)
2. Extract/copy the files from the zip file into this new folder

3. Launch the *getreel.htm* file – it will open in your default web browser. Read the *introduction & acknowledgements* page for instructions on how to navigate through the directory.

NOTE:

Many thousands of hours over a 20-year period have been invested in the creation of this directory.

Please do not make unauthorised copies of this project for friends and colleagues. Instead, encourage them to purchase their own copy and help support the work.
